

Weekly Web Development Assignment No 1

Task 1: Website Clone from YouTube

Clone the following website shown in the video:

 *YouTube Video Link: https://youtu.be/HD13eq_Pmp8?si=ZT-2Q8oN167-WOax*

Instructions:

- Watch the video thoroughly and replicate the layout and structure.
- You can use your own images and text but layout must be similar.

Task 2: Build an Informative HTML Page

Create a meaningful and well-structured webpage using essential HTML tags.

Required HTML Tags (must include):

`<!DOCTYPE html>, <html>, <head>, <title>, <meta>, <link>, <style>, <body>,
<header>, <nav>, <main>, <section>, <footer>,
<h1>-<h6>, <p>, <a>, , /, , , ,
, <hr>, <form>,
<input>, <label>, <button>, <textarea>, <div>, , <table>, <tr>, <td>, <th>`

Instructions:

- The page should be about any topic you like (e.g., a hobby, tech product, travel, etc.).
- Write meaningful content.
- Use semantic structure and proper indentation.

Submission Notes

Capture Evidence:

- Take screenshots or record a short video of both tasks.
- Make sure your proof shows clearly completed work.

LinkedIn Post:

- Write a short post explaining:
 - What you learned from both tasks.
 - Challenges you faced.
 - Your final output and experience.
- Tag the following in your post: **Muhammad Munim**

Deadline:

30th july 2025
