

## Beginner HTML & CSS – Weekly Assignment No. 03

### Task: Clone 10 Mini Projects from YouTube Playlist

Watch and recreate the first 10 projects from the following YouTube playlist using only HTML and CSS.

<https://www.youtube.com/watch?v=za031mewZNC&list=PLPppPPmk0i3hZCNmbVtcP1hlwDKOdUFx9>

---

Instructions:

- Open the playlist and complete Project 1 to Project 10.
- Clone each project as close to the video output as possible.
- You can use your own text, images, or slight modifications if needed.
- Ensure:
  - Clean structure and proper indentation
  - Consistent styling and spacing
  - Responsive layout (where applicable)

### Suggested Folder Structure:

*Assignment-03/*

*├── project-01/*

*├── project-02/*

*├── ...*

*└── project-10/*

---

### Submission Notes

#### Capture Evidence:

- Take screenshots or record short video clips of each completed project.
- Save the evidence inside each corresponding project folder.

#### LinkedIn Post:

- Write a post summarizing:
  - What you learned from building these 10 projects
  - Your favorite project(s)
  - Key takeaways and growth in HTML/CSS skills
- Tag: **Muhammad Munim**
