

Beginner CSS Tasks – Weekly Assignment No. 02

Task 1: Clone the CSS Design from YouTube

Watch and clone the design shown in the following YouTube video:

 <https://youtu.be/wRNinF7YQqQ?si=bgk69qN6r5Cqt0Xw>

Instructions:

- Watch the full video and replicate the output using only HTML and CSS.
- Recreate layout, styles, and colors as closely as possible.
- You may use your own text or content if needed.

Task 2: Style a Personal Bio Page

Create a Personal Web Card – a stylish mini webpage that introduces you using internal CSS.

Instructions:

- Use the `<style>` tag inside the `<head>` of your HTML.
- Style elements such as:
 - Headings (h1, h2)
 - Paragraphs
 - Links (a)
 - Images (img)
- Add background colors, font styles, padding, borders, and hover effects.
- Topic ideas: your hobbies, favorite books, goals, or a fun fact.

Task 3: Create a Colored Box Layout

Objective:

Create 4 colored boxes using div elements and arrange them in a 2x2 grid using CSS Flexbox or Grid.

Instructions:

- Each box should:
 - Have a different background color
 - Be 150x150 pixels
 - Have margin and border
- Use one of the following layout methods:
 - `display: flex; flex-wrap: wrap; justify-content: center;`or
 - `display: grid; grid-template-columns: repeat(2, 1fr);`

- Center the layout on the page.

Task 4: Play and Complete Flexbox Froggy

Objective:

Play the interactive CSS Flexbox game and complete all 24 levels.

 **Link:** <https://flexboxfroggy.com/>

Instructions:

- Go to the game link and complete all 24 levels.
- This will help you understand how Flexbox works in a fun and interactive way.
- Take a screenshot of 7-8 screens as proof.

Submission Notes

Capture Evidence:

- Take screenshots or record a short video of each task (including the game).
- Ensure your proof clearly shows the completed work.

LinkedIn Post:

- Write a short post summarizing:
 - What you learned from these CSS tasks
 - Challenges you faced and how you overcame them
 - Final results and personal reflection
- Tag: **Muhammad Munim**
